

Study Tour - Quality Improvement Process

Mayo Clinic has been named best hospital in the USA multiple times (most recently 2021-2022) and has an excellent reputation worldwide. These awards validate Mayo Clinic's commitment to providing the best possible care to each patient every day. Mayo Clinic measures its quality using outcome measurements, process measurements, patient satisfaction and quality rankings. On October 10th & 11th, 2022 you will have the unique opportunity to visit Mayo Clinic on-site and observe the quality improvement process first hand.

Participants of the Study Tour...

- » get to know the US health care system and understand how quality is integrated into this system.
- » understand which drivers improve quality.
- » get to know different processes and tools in the context of quality assurance and bring them back as inspiration.
